

In a 21st Century global economy, every enterprise needs strategically decisive, mentally tenacious leaders who understand how to accurately prioritize and execute strategies that yield results which are aligned with organizational objectives.

I am a strategically focused Program and Project Management Professional bridging the technical depth of Engineering with industry recognized Project and Program Management methodologies, Six Sigma tools and Lean strategies to develop and deliver products and services to diverse businesses. With an added depth of experience in New Product Development Engineering, Reliability Engineering, and Quality Engineering, I leverage the power of data and analytics to properly assess, substantiate and deliver strategies for maximum return as aligned with enterprise objectives.

Following is a synopsis of what I will offer the organization:

Program Management: I am an experienced Program Manager who develops and executes strategies that align with organizational objectives. I decisively evaluate and accurately identify and implement value-added initiatives that align with enterprise level strategic objectives.

Project Management: As a Project Manager, I communicate effectively across varying business levels, appropriately leverage and allocate resources and delegate responsibilities ensuring optimized productivity and milestone timeliness.

Business Acumen: I am a high-energy and engaged decision maker with a successful record of improving financial results via strategic development, data analysis, quality improvement, process improvement, and program/project management & implementation.

Balanced Multitask Management: I have the demonstrated ability to successfully manage multiple projects and bring order and control by ensuring that project teams are working on the correct priorities as aligned with enterprise goals.
